The Impossible into Possible

The CMSUK Awards recognise and applaud exemplary achievements in case management, highlighting professionals who have demonstrated exceptional dedication and ingenuity in transforming challenges into successes....the impossible into possible.

Martin Perry

Get ready for an exhilarating experience as we proudly unveil Martin Perry, the dynamic table tennis sensation representing Great Britain in Para Table Tennis (GB Para TT). Brace yourselves for an inspiring keynote address and an exclusive presentation of the 2024 Awards by Martin himself.

The youngest among four siblings, Martin's journey unfolds against the backdrop of an innate passion for sports, leading him to the world of table tennis in 2011 at a Scottish Disability Sport summer camp.

Discover the pivotal moment when he crossed paths with the influential Terry McLernon MBE, who became a driving force in shaping Martin's sporting destiny. Immerse yourself in Martin's extraordinary narrative, a compelling tale of overcoming adversity, sheer determination, and triumphant success that promises to captivate and inspire.

Here are some inspiring words from Martin:

When you have no hands and only one leg, table tennis is the obvious career path...surely.

Let me ask you a question, do you ever feel that life is unfair, that all the odds are stacked against you and that you can't go on? Well I'm here to tell you that you can overcome any obstacle in your life or in your career. But why listen to me?

My name is Martin and I play table tennis for Great Britain (GB Para TT), well to be honest I win at Table Tennis. I'm currently ranked in the top 10 in the world for my classification and I have qualified for the Paralympics. But I'm told what makes me inspirational is that I was born with no hands and only one leg. That's right, I've excelled in a sport as demanding as Table Tennis with only one limb. So how hard do those obstacles you face feel now?
