

A CELEBRATION OF CPD!

The COVID-19 pandemic has meant that we have all had a lot more time at home, but a lot less time alone. With demands of family, conference calls and the average supermarket trip taking twice as long, it has sometimes been difficult to find a work life balance and complete CPD activities.

We have listened to our members over the past 4 months and heard that an overwhelming amount of you wanted more CPD opportunities that could either be accessed live or by listening to the recordings at a more suitable time. Between April and July 2020, we were able to offer an extensive webinar programme with thanks to our incredible presenters!

During this period, 12 webinars were offered, in a variety of topics from Spinal Injury to Business Continuity. Each webinar has been recorded and can be purchased along with the presentation slides by contacting info@cmsuk.org. We are pleased to be able to share with you some of the fantastic feedback received from attendees:

- *"I consider this webinar to have been thought provoking, affirming and very pertinent to today's practice. The role play with the legal perspective questioning was an excellent reminder that we cannot be complacent. (Case Managers and Fundamental Dishonesty: How can what you present influence and impact on the claims process? July 2020)*
- *"Great webinar – so informative and not something I would have necessarily seen or had access to if it was not for this way of working. Brilliant use of time to gain additional insight and knowledge." (Prosthetic Rehabilitation, June 2020)*
- *"I would just like to thank you for the course you put on last week. I had paid for two of my employees to attend and I can say it was good value for money. Both felt that your knowledge of the industry was awesome. They both came away from the course inspired and keen. The virtual aspect did not retract from the course. An employer cannot ask for more." (Introduction to Case Management webinar, May 2020)*
- *"Thank you – excellent presentation by both presenters. As I have been working with adults, this opened my eyes to a lot more things to consider with young adults. Case studies are really helpful to work through." (Online Introduction: EHCP for Paediatric Case Managers, Level 1, April 2020)*

The offering of high-quality webinars will continue, with our autumn/winter series which will include an industry first **Virtual Conference** on 11th – 12th November 2020. We have been able to access world renowned speakers including key officials from the NHS, who will be able to bring their expert knowledge and experiences straight to your computer screen! Details of this will be released very shortly!

In the meantime, please keep up to date with our upcoming webinars and conference news by visiting the [events](#) page of our website.

Best wishes,
